Title: Write a C++ program to print pascal triangles.

```
#include <iostream>
using namespace std;

class PascalTriangle {
public:
    void printTriangle(int n) {
        for(int i = 0; i < n; i++) {
            for(int space = 0; space < n - i - 1; space++) {
                cout << " ";
            }
            int val = 1;
            for(int j = 0; j <= i; j++) {
                cout << val << " ";
                val = val * (i - j) / (j + 1);
            }
            cout << endl;
        }
    }
};

int main() {
    int rows;
    cout << "Enter number of rows: ";
    cin >> rows;

    PascalTriangle pt;
    pt.printTriangle(rows);

    return 0;
}
```
